# PLANTATION CHILL CURE IS GUARANTERED. If it fails to cure go to your merchant AND GET YOUR MONEY BACK. We will refund to him. Price 50 cts. VAN VLEET-MANSFIELD DRUG CO.,

There was made quite a remarka ble find up near Grand Rivers a few days ago. The Illinois Central has at work some large steam shovels, in the hill digging gravel. The workmen were recently surprised to find a large log about 350 feet back in the hill It appeared to be about three feet in diameter, forty feet long, and was nighty demolished by the shovel There was but one tree, and it seemed to be about forty feet delow the shovel completed its work, there was about one carload of the wood, which was intermixed with a metal found in the same locality, and which resemments of wood were as large as a man could carry. There was found, also, ome very black clay, which is supposed to be coal in the process of forma-C. Milstead yesterday sent the Sun

A good joke has just leaked out on a well-known preacher, anent his summer trip to the springs. He went up to recreate, and happened to be f about the only man there from Padu-

and the metal.

While he was gone, a drummer latter was not informed as to the Paucahan's honorable calling, and the first thing he did when he reached the springs was to seek the man from Paducah and introduce himself.

They walked around, watched the folly parties swinging, promenading

Presently they came to the home "I am Mr. paster of the church," introduced the minister, "and this is Mrs.

calling the same name as his own They remained some time, but the joke came in when the lady mistook the good sister for the minister's wife, and asked them how many children they had, and several other equally as embarrassing questions. The preacher hastened to explain that relieved of his dilemma.

When a fellow strikes up against a railroad conductor with an object of chating him, he usually gets loft. Not long ago, a young man thought it would be a good idea to take a trip and use his friend's mileage book. The latter protested that it couldn't The latter protested that it couldn't be done, but the other young man was self-confident, so he was allowed to make the trial. He did not know that on the front of the book was punched a description of the person to whom it was issued, and he and his friend were very different in appearance. He bearded the train, and as the boat was crossing the river, the the boat was crossing the river, the conductor came along and called for tickets. The mileage book was hand-

He laughed at the signature, then the young man.

"Male," he called off aloud, and ussed on to "Slim." He looked at he passenger and saw that he was

ANCIENT WHEAT FIELDS. England Boasts of Many Over a Thou

sand Years Old. Some very competent writers, rightened by the disproportion be tween the wheat grown in England and the quantity needed for our daily Seventh street. bread, have recently urged the estabishment of public granaries, for use in time of war, says London Weekly Is our last day of grace. We will have not made more impression on lie uncultivated in England, the pro- Call and get the benefit. is rather too previous. Our best pub ic granaries are the wheat fields of old England, which have fallen into partial ruin and premature decay.

The wheat fields of England have two special claims to consideration based on their merits, and apart from entiment, though we have lately be gun to apprehend that national sentiment in great concerns may be as valuable as public spirit in small ones. But the fact remains that the wheat fields of England are the oldest national industries in this country, and

the most productive in the world. quite a common sight in this country. Of course, it has grown a crop of corn every year in the ten centuries, but during the long sequence of ages, in the fixed and abiding order of this of land has been cultivated, with the

production of wheat as its main obcet, and it has remained as part of the English granary from the days of Edward the Confessor until those of Victoria. Many of the wheat fields are far more ancient than this, but the ecord of Doomsday Book is a practical voucher for a period of 1,000 years. The custom of the Saxon culivators, and the evidence of local names, are proof of a still greater anf the Saxons lie the last two centuries f Roman occupation, when England was the great wheat-growing country of the west, and supplied the population of Rome with daily bread.

Perhaps the most interesting feasure of our ancestral corn lands is the small degree in which their appearance can have changed in the course of ten or 12 centuries. Their area is much greater than in the old times, when villages were separated by wide woodlands, and only grouped and contiguous in naturally open country The early Saxon times were not days in which men cared to lay field to field. There was plenty of ground The Sun is only 10 cents a week, Chambers' Journal.
